SUMMARY

Second-year CS undergrad at VIT-AP, studying AI and Machine Learning. Currently the first engineer at Qaulium AI, where I took the product from no code to production in about six weeks. On the research side, I have done BERT fine-tuning and a proper YOLO comparison study on a large geological dataset. I work across the full stack and am looking for an internship where there is genuinely difficult work to do.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, C
AI / ML: PyTorch, TensorFlow, Keras, Scikit-learn, YOLO, OpenCV, BERT, LSTM, HuggingFace, Transformers, LLM Fine-Tuning, Generative AI, RAG
Data Science: Pandas, NumPy, Matplotlib, Seaborn, Feature Engineering, Model Evaluation (F1, ROC-AUC, Confusion Matrix)
Backend / DB: FastAPI, Node.js, Express, PostgreSQL, MySQL, MongoDB, Firebase, REST APIs, JWT Auth
Cloud & DevOps: Git, GitHub, Docker, Vercel, Cloudflare Workers, CI/CD, OCI (Oracle Cloud), AWS, Linux
Frontend: React, HTML5, CSS3, Tailwind CSS, Vite

EXPERIENCE

Founding Software Engineer | **Qaulium AI** Jan 2025 – Present | Remote

- First engineer on the team — took the product from nothing to production in under six weeks, covering the landing page, admin panel, employee portal, and internal tooling.
- Set up JWT role-based access control and handled 30+ deployments on Vercel without a single production outage.

PROJECTS

Coal Classification AI | *Python, YOLO, OpenCV, PyTorch* [GitHub](#) ↗

- Compared three YOLO generations on a 1.55 GB geological dataset across five damage categories; selected the best model by mAP50, precision, and recall with full per-class F1 and confusion matrix logs.

Multi-Domain Sentiment Analysis | *Python, BERT, LSTM, HuggingFace, Scikit-learn* [GitHub](#) ↗

- Tested 15+ classifiers across seven NLP datasets; fine-tuned BERT to 86% on IMDB, outperforming all baselines by 8–12 points, with per-domain reports covering accuracy, F1, ROC-AUC, and confusion matrix.

CricketConnect Pro | *TypeScript, React, Node.js, PostgreSQL, Cloudflare Workers* [GitHub](#) ↗

- Live platform for venue bookings, tournament management, and three-tier RBAC — 43 CI/CD iterations with zero production regressions.

LaundryHub AI SaaS | *TypeScript, React, Firebase, Node.js* [GitHub](#) ↗

- Three-role SaaS with real-time Firebase order tracking and an NLP chatbot that cut repetitive order status queries by ~40%.

Civic AI | *Python, FastAPI, React, NLP* [GitHub](#) ↗

- NLP classifier routes citizen complaints to the right department; FastAPI backend with priority scoring and a React dashboard for officials.

EduVision-X | *Python, React, Computer Vision, Deep Learning* [GitHub](#) ↗

- Real-time student feedback platform using computer vision; inference pipeline tuned to under 200ms so feedback feels immediate.

EDUCATION

B.Tech — CSE (AI & ML) | **VIT-AP University, Amaravati** 2024 – 2028
CGPA: 7.5/10

Intermediate (MPC) | **Narayana Junior College** 2022 – 2024
Score: 93%

SSC | **Sri Chaitanya Techno School** 2021 – 2022
Score: 93%

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 AI Foundations Associate — Oracle (2025)
- Foundations of Project Management — Google / Coursera
- Data Analytics Virtual Job Simulation — Deloitte Australia

AWARDS & LEADERSHIP

- Top Contributor #1 — GDGoC VIT-AP Git & GitHub Open Source Challenge (Mar 2025)
- 2nd Place — ElectroQuest Technical Competition, IEI Student Chapter, VIT-AP University
- VIT-AP Aura Hackathon — built and demo-ed a working product in one day as part of a four-person team
- AI/ML Team Lead — GDGoC VIT-AP: ran workshops, coordinated projects, mentored junior members
